SUMMARY

Winner of the **Huawei Africa Competition ('25)**. Built a full-stack solution for a **Fortune 500** client as a freelancer, managing the entire project end-to-end. Currently consulting at **Zoho Corporation**, delivering ERP & CRM solutions to enterprises across the Middle East. 3x **SAP Certified**. Senior Full Stack Engineer and AI graduate.

EDUCATION

BSc Computer Science — AI Specialization · **GPA: 3.6** · London South Bank University (BUE)
Sep 2020 – Jul 2024 · Accredited by The British University in Egypt

IGCSE · English British International Schools (EBIS) · *Sep 2017 – Jul 2020*

EXPERIENCE

Technical Consultant | Zoho Corporation
Aug 2025 – Present

- Leading end-to-end CRM and ERP implementations for enterprise-level clients in KSA and UAE.
- Designing custom solutions, automating modules, and integrating third-party applications via APIs, Postman, and SQL.
- Reduced API errors by **35%** through optimized logging and technical analysis.

Graduate Program (Young Professionals Program) | SAP
Jun 2025 – Aug 2025

- Selected as one of **30 candidates** from over 2,000 applicants for an intensive training program.
- Specialized in SAP S/4HANA Cloud and SAP Business Technology Platform (BTP) architecture.
- Earned global certifications in Integration Development and Implementation Consulting.

Full Stack Developer | Almasria Marble & Granite
Aug 2024 – Apr 2025

- Developed and maintained corporate websites, e-commerce platforms, and custom CRM system.
- Built full-stack solutions for high-profile clients, managing the lifecycle from scoping to deployment.
- Optimized properties to achieve **90+ Google PageSpeed** scores across all platforms.

Software Engineer Intern | Giza Systems
Jun 2023 – Aug 2023

- Developed IoT full-stack web applications using Angular, Java Spring Boot, and RESTful APIs.
- Leveraged JHipster to automate code generation, boosting development speed by **31%**.
- Optimized MySQL databases with advanced indexing for large-scale IoT time-series data.

PROJECTS

HCAIP Healthcare AI Platform
React, Python, FastAPI, Huawei Cloud (ModelArts, GaussDB)

- Ranked **3rd Place** in the Huawei Spark Developer Competition.
- Served as tech lead, owning the AI layer, agent workflows, chat persistence, and frontend/backend integration in collaboration with the AI developer.
- Built a multi-entity healthcare platform with separate logins and an interactive Egypt map for live monitoring and filtering.

Custom Full Stack CRM & Workflow System
React, TypeScript, Supabase, PostgreSQL, Tailwind CSS

- Developed a modular manufacturer operations and CRM application with role-based access, admin controls, revocable access, and activity logging.
- Built complex CRUD workflows covering production, delivery, payments, finance, and assignment of workers and engineers.
- Added a custom calendar-based workflow manager for day-to-day operations.

3D Expo Indoor Navigator

React, TypeScript, Supabase, PostgreSQL, Vite

- Developed a 3D event navigation app featuring interactive maps, multilingual booth details, event agenda views, and blue-dot positioning.
- Deployed for **300+ booths** at Egypt International Exhibition Center, supporting **30,000+ attendees** with A-to-B indoor routing.
- Handled delivery and DevOps, including Docker.

Tekronyx AI Platform for Ministry of Interior

React Native, Mapbox, OpenAI API, Firebase, ElevenLabs

- Created an AI officer platform that cuts report writing time by **80%**.
- Built guided voice-to-text report creation with structured document generation, saved conversations, and resumable case workflows.
- Added a crime analytics map dashboard and a forecasting POC for upcoming crimes by region.

Twitter/X Sentiment Analysis for Financial Markets

Python, spaCy, NLTK, TensorFlow, RoBERTa

- Graduation project using LSTM and GRU models trained on RoBERTa-based sentiment data and financial metrics.
- Achieved MSE gains of **2.20% for LSTM** and **15.33% for GRU** using sentiment features.

Egyptian Marble & Granite Web Portal

PHP, HTML, CSS, JavaScript, SEO Optimization

- Engineered a custom website with an admin panel in PHP; it was not built on WordPress.
- Ranked **#1 on Google** for primary industry keywords in Arabic through strong technical SEO.

SKILLS

- **Languages:** Python, JavaScript, TypeScript, Java, PHP, SQL, C#, C++
- **Frameworks & Libraries:** React.js, Next.js, Angular, Spring Boot, Django, Node.js, TensorFlow, PyTorch, Scikit-learn
- **Tools & Platforms:** AWS, Google Cloud, Huawei Cloud, Cloudflare, SAP S/4HANA, SAP BTP, Docker, Vercel CI/CD, GitHub Actions, Linux, Postman

CERTIFICATIONS

- **Huawei Cloud Certified – Associate Cloud Engineer**
- **SAP Certified Associate - Implementation Consultant SAP S/4HANA Cloud Public Edition, SAP**
- **SAP Certified Associate - Integration Developer, SAP**
- **Software Engineer Intern, Giza Systems**
- **COP27 IT Support Specialist, United Nations**
- **Front End Web Developer Nanodegree, Udacity**
- **Introduction to Backend Development, Meta**
